

CHEER ROUTINE INFRACTIONS (*Deductions*)

ATHLETE FALL = 0.25 points

- * Hands/head/knees/core/etc. touch ground during tumbling or jumps

BUILDING FALL = 0.75 points

(Example: While catching the cradle, flyers fingers touch the floor or while bumping down from extended stunt to waist level, one of the flyers feet slips through to the floor.)

Includes:

1. Coed early pop down, fall, or sweep. The base must catch the flyer at the waist, controlled while assisting the flyer back down to the performance surface landing on only their feet.
2. Level 1 waist level stunts: Flyer falls/steps down early and lands only on their feet.

- * **One base or spotter falls to the floor during a building skill**

- * **When a single stunt group falls multiple times within the same sequence, and the sum of the fall deductions are greater than 1.75 points.**

BOUNDARY VIOLATIONS = 0.25 points

The performance surface is defined as the 42' x 54' competition floor. The competition boundary is defined as the performance surface and any immediate adjacent safety border. A 0.25 point deduction will be assessed per occurrence for an athlete that completes a skill landing with both feet outside the competition boundary. Stepping on, or just past the border is not a boundary violation.

IMAGE POLICY, CHOREOGRAPHY & MUSIC = 0.25 points

Apparel, movement and lyrics must be appropriate for a family viewing audience. Please refer to the Safety Rules document for further clarification to determine what is appropriate.

TIME LIMIT VIOLATIONS = 0.25 points

The routine time limit is listed below. Judges will use a stop watch or similar device to measure the official time. Acknowledging the point of variance caused by human reaction, speed, and sound; judges will not issue a .25 point deduction until their stopwatch/clock shows a time that exceeds the maximum time limit by 3 seconds.

WARNING = 0.0 points

- * If less than a majority of groups (up to 50%) perform a building skill illegally.
(There must be a legal version being performed simultaneously for comparison.)
(In pyramids, "majority" is defined by the number of groups performing the illegal skill not the total number of groups in the pyramid.)
- * If a team has submitted USASF legally approved video of the skill performed the same way at competition but the skill is now illegal.
- * If a team has submitted USASF legally approved video of the skill performed the same way at competition but the USASF video ruling is incorrect.
- * The skill performed is unclear for the judge

Teams that receive a warning at a competition, need to take the time to fix the skill and make it legal prior to their next competition for the safety of the athletes.
